INDEX TO VOLUME LXII 1994

SUBJECTS

Accounting issues
FASB opens door to new appraiser role, 470–472
treatment of debt financing for capital budget decisions, 189–196
valuation and REITs, 150–152

Appraisal (*see also* **valuation**)
accurate appraisals in rural market, 289–295
agency relationships in appraising, 103–112
appraising in an inflationary environment, 507–513
avoiding forecasting errors in appraisals, 222–228, 654–655
comparison of appraisal practices between U.S. and Israel, 118–123
developing appraisal training system, 229–233
direction of value, 145–146
discounts associated with historic facade easements, 270–277
evolution of appraisal reform and regulation, 26–46
illiquidity in appraisal market, 319–322
impact of state certification on appraisal market, 26–46, 217–221, 363–366
independent contractor or employee, 20–25
interview techniques for appraisal business, 322–323
limiting liability and exposure, 94–97
need for early warning system, 372–378
need for more accessible information, 379–381
need for statewide appraisal peer review system, 86–93
quality function deployment at small appraisal firm, 382–390
standards and community lending, 553–557
survey of clients, 113–117, 367–371
use of engagement letter to minimize discrepancies, 11–15
valuation and finance in 1990s, 353–357
value theory of the Austrian school, 465–469

Appraisal clients
effect of state certification on appraisers' ability to obtain clients, 217–221
lender views on selection of appraisers, 367–371
survey of appraisal clients—1993, 113–117
use of engagement letter to clarify limits of appraiser responsibility, 11–15
use of quality function deployment to meet client needs, 382–390

Appraisal firms
agency relationships for institutional asset managers, 103–112
client needs, 113–117
developing training system, 229–233
effect of state certification on appraisal business, 217–221
effective time management for appraisers, 580–586
independent contractors or employees, 20–25
information access concerns, 379–381
interviewing techniques when hiring new appraisers, 322–323
lender views on selecting and rejecting appraisers, 367–371
limiting firm's liability and exposure, 94–97
management information systems, 525–534

Appraisal review
communication in the review process, 197–202
need for early warning system, 372–378
reviewer infallibility, 358–362
reviewing nursing home appraisals, 542–545
usefulness of statewide peer review system, 86–93

Attics
problems in valuation of, 323–326

Bank branch valuation
an empirical approach, 171–180

Basements
reasonable adjustment for in residential appraisals, 518–524

Brazil
appraising experiences in, 507–513

Capital budgeting
three treatments of debt financing for decisions concerning, 189–196

Capitalization
in evaluation of appropriate discounted cash flow for project, 609–617
hierarchical order of cap rate determinants, 278–288
income and expense estimates and direct capitalization, 314–316
relevance and application of gross income multiplier, 203–208

Coastal property
adjusting market value for beach quality, 604–608

Communication skills
use in reviewing appraisals, 197–202

Comparable sales adjustments
accurate appraisal in a rural market, 289–295
contaminated properties and, 402–409
and endangered species, 98–102
property-to-property comparison, 64–67
and recycling stations, 68–74
use in timberland valuation, 587–595

Compounding
basic applications of, 234–239
use of in estimating monthly adjustments for market conditions, 251–255

Condemnation actions
supporting appropriate adjustments for, 558–571

Construction issues
disposal of hazardous substances when rebuilding urban communities, 424–438
influences on industrial facility designs, 296–302
life safety systems, 626–630
roofing systems, 327–330

Contaminated property
appraising recycling stations, 68–74
basis for an impaired value opinion, 410–423
effect of new state EPA regulations for disposal of hazardous substances on cost to rebuild, 424–438
market research for recycling stations, 439–445
and the sales comparison approach, 402–409

Continuing care retirement centers
appraisal of, 546–552
how to review appraisals of, 542–545

Cost approach
appraising specialized assets, 75–85
in bank branch valuation, 171–180
need for continued use of, 144–145

Cost modeling
use of to increase efficiency in appraisal firm, 391–395

Debt financing
three treatments of, 189–196

Depreciation
contaminated properties and sales comparison, 402–409
valuation and finance in 1990s, 353–357

Discounted cash flow analysis
application of gross income multiplier, 203–208
choosing the appropriate discounted cash flow for a project, 609–617
income and expense estimates and direct capitalization, 314–315
proper method of calculating monthly discount rates, 619–621
treatments of debt financing for capital budgeting decisions, 189–196
use in income approach with Gordon Growth Model, 124–128

INDEX TO VOLUME LXII 1994

SUBJECTS

Accounting issues
FASB opens door to new appraiser role, 470–472
treatment of debt financing for capital budget decisions, 189–196
valuation and REITs, 150–152

Appraisal (*see also* **valuation**)
accurate appraisals in rural market, 289–295

interviewing techniques when hiring new appraisers, 322–323
lender views on selecting and rejecting appraisers, 367–371
limiting firm's liability and exposure, 94–97
management information systems, 525–534

Appraisal review
communication in the review process, 197–202
need for early warning system, 372–378
reviewer infallibility, 358–362
reviewing nursing home appraisals, 542–545
usefulness of statewide peer review system, 86–93

Attics
problems in valuation of, 323–326

Bank branch valuation
an empirical approach, 171–180

Basements
reasonable adjustment for in residential appraisals, 518–524

Brazil
appraising experiences in, 507–513

Capital budgeting
three treatments of debt financing for decisions concerning, 189–196

Capitalization
in evaluation of appropriate discounted cash flow for project, 609–617
hierarchical order of cap rate determinants, 278–288
income and expense estimates and direct capitalization, 314–316
relevance and application of gross income multiplier, 203–208

Coastal property
adjusting market value for beach quality, 604–608

Communication skills
use in reviewing appraisals, 197–202

Comparable sales adjustments
accurate appraisal in a rural market, 289–295
contaminated properties and, 402–409
and endangered species, 98–102
property-to-property comparison, 64–67
and recycling stations, 68–74
use in timberland valuation, 587–595

Compounding
basic applications of, 234–239
use of in estimating monthly adjustments for market conditions, 251–255

Condemnation actions
supporting appropriate adjustments for, 558–571

Construction issues
disposal of hazardous substances when rebuilding urban communities, 424–438
influences on industrial facility designs, 296–302
life safety systems, 626–630
roofing systems, 327–330

Contaminated property
appraising recycling stations, 68–74
basis for an impaired value opinion, 410–423
effect of new state EPA regulations for disposal of hazardous substances on cost to rebuild, 424–438
market research for recycling stations, 439–445
and the sales comparison approach, 402–409

Continuing care retirement centers
appraisal of, 546–552
how to review appraisals of, 542–545

Cost approach
appraising specialized assets, 75–85
in bank branch valuation, 171–180
need for continued use of, 144–145

Cost modeling
use of to increase efficiency in appraisal firm, 391–395

Debt financing
three treatments of, 189–196

Depreciation
contaminated properties and sales comparison, 402–409
valuation and finance in 1990s, 353–357

Discounted cash flow analysis
application of gross income multiplier, 203–208
choosing the appropriate discounted cash flow for a project, 609–617
income and expense estimates and direct capitalization, 314–315
proper method of calculating monthly discount rates, 619–621
treatments of debt financing for capital budgeting decisions, 189–196
use in income approach with Gordon Growth Model, 124–128

use in lender residential subdivision evaluation, 572–579

Easements
appraisal of endangered species habitat, 98–102, 129–137
appropriate adjustments in large-scale condemnation actions, 558–571
discounts associated with historic facade easements, 270–277
historic designation and residential property values, 396–401
subway tunnel easements in metropolitan areas, 310–313
trends in appraising conservation easements, 138–143, 481–488, 640–647
value of contributed property in utility valuation, 264–269

Economic obsolescence
appraising specialized assets, 75–85
model for deriving replacement reserves, 240–250

Environmental issues
appraisals involving endangered species, 98–102
appraising conservation easements, 138–143, 640–647
appraising proposed recycling stations, 68–74
deriving an impaired value opinion, 410–423
endangered species habitat and urban development, 129–137
legal decisions involving stigma, 473–474
market research for recycling stations, 439–445
regulatory controls of disposal of hazardous materials in urban rebuilding, 424–438
use of sales comparison to value contaminated properties, 402–409

Equity Real Estate Investment Trusts
discounting of partial ownership interests, 535–541
financial views—spring—1994, 331–334
institutional asset managing, 103–112
institutional-grade real estate, 618–619
valuation and, 150–152
valuation and finance in the 1990s, 353–357

Ethics
agency relationships in appraising for institutional asset managers, 103–112
and appraisal reform in United States, 26–46
community lending and appraisal standards, 553–557
destabilizing forces in early 1980s, 372–378
implications of review process on, 358–362
independent contractor status and URAR form, 514–517
and peer review, 86–93
will state certification decrease appraisal quality, 217–221, 363–366

Financial issues
agency relationships in appraising for institutional asset managers, 103–112
analysis of property tax expense, 209–216
counseling university foundations, 316–319
destabilizing forces and need for early warning system, 372–378
facets of compounding, 234–239
FASB opens new role for appraisers, 470–472
financial views—spring—1994, 331–334
implications of direction of value, 145–146
implications of illiquidity on market, 319–321
institutional-grade real estate, 618–619
lender criteria for hiring appraisers, 367–371
lender residential subdivision evaluation, 572–579
market discounting of partial ownership interests, 535–541
three treatments of debt financing for capital budgeting decisions, 189–196
and valuation in the 1990s, 353–357
valuation and REITs, 150–152
value of land in collapsing market, 146–149
value theory of Austrian school, 465–469

Forecasting methods
determinants of cap rate, 278–288
determinants of demand for industrial property, 303–309
direction of value, 145–146
estimating monthly adjustment for market conditions, 251–255
financial views—spring—1994, 331–334
improving appraisals by avoiding forecasting errors, 222–228, 654–655
need for early warning system, 372–378
supply and demand considerations in residential subdivision analysis, 57–63

Golf course/country club communities
issues in appraisal of, 181–188

Gordon Growth Model
and the income approach to value, 124–128

Gross income multiplier
relevance and application of, 203–208

Highest and best use
determining highest and best use of retail property, 497–506
effect of land-use regulation on, 596–599
evaluating interim uses, 52–56

Income approach
and the Gordon Growth Model, 124–128
lender use for collateral evaluation purposes, 572–579
proper method for calculating monthly discount rates, 619–621
and the property tax expense, 209–216
use in bank branch valuation, 171–180
use in determining land value in collapsing market, 146–149

Industrial property
determinants of demand for, 303–309
ground-lease rental rates of, 256–263
influences on design of, 296–302
recycling stations, 68–74, 439–445
roofing systems of, 327–330
value of contaminated sites, 402–409, 424–438

Information systems
use in management of appraisal business, 525–534

Institutional appraisal
agency relationships in appraising for institutional asset managers, 103–112
institutional-grade real estate, 618–619
market discounting of partial ownership interests, 535–541
valuation and equity real estate investment trusts, 150–152

Interim uses
evaluation of, 52–56

International appraisal
appraising in the inflationary environment of Brazil, 507–513

Legal issues
assignments involving endangered species, 98–102
community lending and appraisal standards, 553–557
dealing with regulators, 16–19
effect of stigma on market value, 473–474
evolution of appraisal reform and regulation, 26–46
impact of state certification on commercial appraisal market, 217–221
independent contractor or employee, 20–25, 514–517
land value under differing land-use restrictions, 596–599
limiting a firm's liability and exposure, 94–97
some examples of appraisers in court, 153–155
use of engagement letter to minimize discrepancies between appraised value and transaction price, 11–15

Liquidity
financial views—spring—1994, 331–334
implications of lack of in current real estate market, 319–322

Market analysis
adjusting market value of coastal property for beach quality, 604–608
avoiding forecasting errors, 222–228, 654–655
determining demand for industrial property, 303–309
determining ground-lease rental rates, 256–263
discounting of partial ownership interests, 535–541
effect of direction of value on, 145–146
empirical approach to bank branch valuation, 171–180
estimating monthly adjustment for market conditions, 251–256
historic designation and residential market values, 396–401
implications of illiquidity in market, 319–322
land value in a collapsing market, 146–149
overview of senior housing market, 47–51
and recycling stations, 68–74
supply and demand in residential subdivision analysis, 57–63
use in appraisal of country club communities, 181–188

use of retail sale data to evaluate retail centers, 497–506

Market value
land value in collapsing market, 146–149
of residential lots in abandoned railroad right-of-way, 558–571
use of beach quality to determine value of coastal property, 604–608

Mortgage issues
community lending and appraisal standards, 553–557
comprehending compounding, 234–239
differing treatments of debt financing for capital budgeting decisions, 189–196

Multiple regression analysis
use of to determine appropriate adjustments in sales comparison approach, 558–571
use of to determine market value of coastal property, 604–608
use of to quantify the value of a view in single-family residential real estate markets, 600–603

Nursing home appraisals
and appraisal of continuing care retirement centers, 546–552
how to review, 542–545

Office buildings
analyzing the property tax expense for, 209–216
determining ground-lease rental rates for, 256–263
hierarchy of determinants of the cap rate for, 278–288
roofing systems for, 327–330

Present values
deriving in calculation of monthly discount rates, 619–621
usefulness for underwriting purposes, 609–617

Production methods
influence on industrial facility design, 296–302

Professional development
agency relationships in appraising for institutional asset managers, 103–112
appraisal review issues, 197–202, 358–362
avoiding forecasting errors, 222–228
client criteria for appraisers, 113–117, 367–371
comprehending compounding, 234–239
cost modeling to improve appraisal business, 391–395
counseling university foundations, 316–319
dealing with regulators, 16–19
developing appraisal training system, 229–233
effect of state certification on, 217–221, 363–366
effective time management for appraisers, 580–586
implications of appraisal litigation, 153–155, 473–474
increasing ties with appraisers abroad, 118–123
independent contractor or employee, 20–25
interviewing potential appraiser employees, 322–323
limiting appraisal firm's liability and exposure, 94–97
need for access to information, 379–381
need for early warning system, 372–378
need for statewide appraisal peer review system, 86–93
new role for appraisers offered by FASB, 470–472
proper analysis in residential appraisal, 323–326
use of engagement letter to minimize discrepancies between appraised value and transaction price, 11–15
use of management information systems to enhance appraisal business, 525–534
using quality function deployment to improve business at appraisal firm, 382–390
valuation and finance in next decade, 353–357
value theory of Austrian school, 465–469

Quality function deployment
use in business planning at small appraisal firm, 382–390

Regulation
appraisal involving endangered species, 98–102, 129–137
community lending and appraisal standards, 553–557
dealing with regulators, 16–19
effect of land-use regulation on land value, 596–599
evolution of in United States, 26–46
impact of state certification on market, 217–221, 363–366
need for statewide appraisal peer review system, 86–93
valuing affordable multifamily housing, 446–454, 455–464
valuing contaminated property, 402–409, 410–423, 424–438

Rental rates
determining ground-lease rates, 256–263
influence of subway tunnel easement on, 310–313

Replacement reserves
a model approach to, 240–250

Residential issues
adjusting market value of coastal property for beach quality, 604–608
analyzing property tax expense, 209–216
consistency problems in adjustments in residential appraisals, 518–524
cost of rebuilding residential housing in urban area, 424–438
determination of market value of residential lots in abandoned railroad right-of-way, 558–571
historic designation and residential market values, 396–401
issues in valuing country club communities, 181–188
land value in collapsing market, 146–149
lender residential subdivision evaluation using discounted cash flow analysis, 572–579
lender views on selecting and rejecting appraisers, 367–371
new URAR form and independent contractor status, 514–517
overview of senior housing market, 47–51
property-to-property comparison, 64–67
roofing systems of, 327–330
supply and demand in residential subdivision analysis, 57–63
underwriting standards for residential mortgages, 609–617
use of gross rent multiplier in valuing residential property, 203–209
using engagement letter to minimize discrepancies, 11–15
valuation of attics, 323–326
value of a view in real estate market, 600–603
valuing affordable multifamily housing, 446–454, 455–464

Retail centers
sale data and the evaluation of, 497–506

Rural property
accurate appraisals in a rural market, 289–295
sales comparison approach and timberland valuation, 587–595

Sales comparison approach
comparison of residential lots, 57–63
property-to-property comparison, 64–67
and recycling stations, 68–74
use in appraising conservation easements, 138–143, 640–647
use in bank branch valuation, 171–180
use in determining land value in collapsing market, 146–149
use of regression analysis to determine appropriate adjustments in, 558–571
use in rural appraising, 289–295

Sinking-fund method
use of to evaluate replacement reserves, 240–250

Standards of appraisal practice
community lending and appraisal standards, 553–557
dealing with regulators, 16–19
destabilizing forces in 1980s, 372–378
effect of state certification on appraisals, 217–221, 363–366
evolution of in the United States, 26–46
limiting appraisal firm's liability, 94–97
minimizing discrepancies between appraised value and transaction price by using engagement letter, 11–15
need for statewide appraisal peer review system, 86–93
new URAR and independent contractor status, 514–517
valuation and finance in 1990s, 353–357

State certification and licensing
effects of on client decisions, 113–117, 367–371
evolution of in United States, 26–46
impact of on appraisal market, 217–221, 363–367

Subway tunnel easements
in metropolitan areas, 310–313

Tax issues
analyzing property tax expense, 209–216
value discounts associated with historic facade easements, 270–277
valuing property developed with low-income housing tax credits, 446–454, 455–464

Timberland
use of sales comparison approach to value, 587–595

Utilities
value of contributed property in valuation of, 264–269

Valuation
of affordable multifamily housing, 446–454, 455–464
of attics, 323–326
of bank branches, 171–180
of coastal property, 604–608
of conservation easements, 138–143
of contaminated properties, 402–409, 410–423, 424–438
of continuing care retirement centers, 546–552
of contributed property in utility valuation, 264–269
of endangered species habitat, 98–102, 129–137
and equity real estate investment trusts, 150–152
of historic facade easements, 270–277
of industrial property, 303–309
of interim uses, 52–56
of partial ownership interests, 535–541
of private-equity golf/country club communities, 181–188
of recycling stations, 68–74, 439–445
of residential adjustments, 518–524
of residential property, 57–63, 64–67
of retail centers, 497–506
in rural market, 289–295
of senior housing, 47–51
of specialized assets, 75–85
of subway tunnel easements, 310–313
theory of—the Austrian school, 465–468
for university foundations, 316–319
of a view, 600–603
